LUBRICATION PROGRAM REVIEW

OIL STORAGE SYSTEM SET-UP

CONTAMINATION CONTROL

Why spend the money to have the equipment and trained people when you only need them once in a while?

Whether you need help on a single project or a regularly scheduled program, we can give you the flexibility to keep up with your oil quality needs without having to pay for a crew 24/7.

Our service specialists make use of the latest technology and up to date techniques to give you the competitive edge you need in today's business climate.

Let us keep your hydraulic and lube systems in peak condition. Changing filters, checking cleanliness and upgrading filtration systems are just a few examples of the typical services we can take off your to-do list.

RENT EQUIPMENT

- If you have the personnel but can't afford to purchase the equipment...
- We can train them to operate the equipment you rent from us.
- Save \$\$ by using the people you're already paying.

WHAT CAN YOU LEARN FROM YOUR OIL?

You'd be surprised at the answers we get to that question. Or maybe you wouldn't.

There's a wealth of information available to you if you sample your oil.

The real question is, what action are you prepared to take on the information you get when you learn your oil's Condition?
